# GP RENEWABLES GROUP

## Foundation repairs

Efficient, safe, fast, cost-effective

**As the only one market player we combine comprehensive know-how on foundation design and long-term experience in foundation repair.**

Only such a combination of competences gives the guarantee of selection of the most optimum solution. Our offer includes not only a repair but also an efficient and long-term solution to the problem.

## → 6 steps towards a successful repair:

- 01.** Visual inspection, inspection inside and outside, measuring tower movements
- 02.** Design analysis
- 03.** Execution process study
- 04.** Presentation of possible solution scenarios
- 05.** Repair with maintenance of high OHS standards and care for the tower cleanliness
- 06.** Detailed report discussed with the customer, guarantee

## Our offer includes:

🔧 expert opinions 🔧 injections 🔧 concrete repairs 🔧 effective insulations 🔧 drainage

## Why you should choose us:

- Design and construction experience
- Number of repairs carried out and efficiency.  
100% satisfied customers
- Quick mobilization
- Adjusting the date, minimizing the costs of the tower shut-down
- OHS, security of works and utmost care for work cleanliness
- Membership in WIND EUROPE and PSEW
